

Pavan Datta Gedila

Computer Science Engineering student at Centurion University of Technology and Management,

with hands-on experience in cloud computing, infrastructure management, and IT services.

Passionate about Node.js, cloud technologies, and network security.

About Me

currently pursuing a B. Tech in
Computer Engineering at Centurion University of Technology and
Management, Paralakhemundi, Odisha, India (2023–
2027).

Quick Facts

- ♦ B. Tech Computer Engineering, 2023–2027
 - ♦ 2 years of internship experience
 - ♦ Cloud & infrastructure focus
 - ♦ Network security trained
- With two years of internship experience across cloud Computing, infrastructure management, and IT services, I bring hands-on technical skills to every role.

Experience

Samriddhi Anveshana — Summer Intern

May 2026 – Present · Hyderabad

Micro Information Technology Services — Intern

2024 – Present · 2 years

Gained hands-on experience in cloud computing and infrastructure management. Learned cloud service models (IaaS, PaaS, SaaS) and deployment strategies. Assisted in configuring cloud resources and security best practices.

Top Skills

Core technical competencies developed through hands-on internship work and focused study in cloud platforms, backend development, and networking fundamentals.

Node.js

Backend JavaScript runtime for building scalable server-side applications and APIs.

Node.js in Azure

Deploying and managing Node.js applications on Microsoft Azure cloud infrastructure.

TCP/IP

Internet Protocol Suite — foundational networking knowledge for cloud and infrastructure roles.

Cloud & Infrastructure Expertise

What I've Learned

Through my internship at Micro Information Technology Services, I gained practical experience across the full spectrum of cloud service models and deployment strategies.

→ IaaS, PaaS, SaaS

Understanding of all three cloud service models and their use cases.

→ Cloud Resource Configuration

Hands-on work configuring and managing cloud resources in production environments.

→ Security Best Practices

Applied security standards to cloud infrastructure deployments.

Certifications

Recognized credentials spanning cloud platforms, AI, cybersecurity, and design — reflecting a commitment to continuous learning across emerging technology domains.

Learn AutoCAD 2D & 3D: From Zero to Hero

Technical design and drafting proficiency.

Introduction to Generative AI Studio

Foundational knowledge in generative AI tools and platforms.

Mastering Network Security: Defending Against Cyber Threats

Network defense strategies and cybersecurity best practices.

AI for Students: Build Your Own Generative AI Model

Hands-on generative AI model development for students.

EY Technology Risk Job Simulation

Practical experience in technology risk assessment and compliance.

AI & Generative AI Focus

Why AI?

With two certifications in Generative AI — including hands-on model building — AI is a core focus area alongside cloud and security.

AI Credentials

- **Introduction to Generative AI Studio** Explored generative AI platforms and their real-world applications.
- **AI for Students: Build Your Own Generative AI Model**

Network Security

Security is woven throughout my technical background — from TCP/IP networking fundamentals to dedicated cybersecurity training and cloud security practices.

Network Security Certification

Trained in defending against cyber threats with a focused certification in network security best practices.

TCP/IP Foundation

Core networking knowledge underpins secure infrastructure design and cloud deployments.

Cloud Security Practices

Applied security best practices while configuring cloud resources during my internship at Micro IT Services.

Languages

Professional proficiency across four languages, enabling effective communication in diverse technical and cultural environments.
